A Unique Opportunity to Make a Genuine Impact

Are you searching for an opportunity to make a profound and lasting impact? Our exceptional students have earned their place at our academy based on **talent and motivation**, not their financial background.

JPA provides full academic scholarships to children from rural Siem Reap, giving them access to a **high-quality, rigorous education** that would otherwise be out of reach.

This isn't just another teaching job. It's a chance to fundamentally change the life trajectory of students who are driven to **build a better future** for themselves and their families. Their appreciation for this opportunity creates a uniquely **focused, respectful, and engaged** learning environment.

Our Approach:

Structured, Evidence-Based, and Effective

At JPA, we are committed to what works. We believe that academic excellence is achieved through proven, high-impact teaching, not ineffective trends.

We provide **structured learning environments** where teachers, as subject experts, lead the way. Our instructional model is rooted in evidence from the **science of learning**, drawing on fields like cognitive science to prioritize what truly builds deep, lasting knowledge.

This means a focus on explicit instruction, guided practice, regular retrieval, consistent checking for understanding, and relentless **high standards**.

We don't leave learning to chance. We believe in building an environment where **ambitious academic outcomes** are the goal, and we support our students every step of the way to achieve them. If you are an educator who believes in high standards and the power of **evidence-based practice**, you will thrive here.

WHAT WE OFFER

Siem Reap boasts an **excellent cost of living**, where you can afford a beautiful apartment, enjoy frequent meals out, **travel internationally**, and still **save money**. It's a lively town packed with a wide variety of restaurants, from **fine dining** to authentic \$2 street food. The **cafe scene** is booming with dozens of coffee shops that sit alongside the numerous **art galleries**.

If this isn't enough, you can also expect a competitive salary package with **comprehensive health insurance** and **full visa support**, generous **relocation allowances**, an **annual return flight home** and an unparalleled working environment in a beautiful, **green oasis** set on eleven hectares of gardens, without a student phone in sight.

Did we mention the sensible marking policies and the 10+ hours of scheduled weekly **planning time** to make sure that you can focus on teaching and learning?

What are you waiting for?
